

Interactive comment on “An objective rationale for the choice of regularisation parameter with application to global multiple-frequency S-wave tomography” by C. Zaroli et al.

C. Zaroli et al.

c.zaroli@unistra.fr

Received and published: 29 August 2013

A point by point response to the two reviewers comments is given in the attached supplement file. We believe the revised manuscript has benefitted from all the comments received, and hope it is now suitable for publication in Solid Earth.

Please also note the supplement to this comment:
