Many thanks to the reviewers for their enlightening suggestions and comments on our paper. Response to reviewer 1: We add to the introduction examples of the positive impacts of grazing on ecosystems. Response to reviewer 2: You are correct. We made a mistake in the caption of Fig. 3. It was corrected. We changed to abbreviations into full names in the discussion. We added a map the study region instead of Google map. We added a table with all data of results. It includes specific events. You are absolutely correct. “Size of the plot” was added to the reasons for the differences between the studies.

Please also note the supplement to this comment:
