Dear referee, Thank you for your enlightening comments on my paper. You are correct. We made a mistake in the caption of Fig. 3. It was corrected. We changed to abbreviations into full names in the discussion. We added a map of the study region instead of Google map. We added a table with all data of results. It includes specific events. You are absolutely correct. “Size of the plot” was added to the reasons for the differences between the studies. Sincerely, Sarah Pariante
