

Interactive comment on “Predicting parameters of degradation succession processes of Tibetan *Kobresia* grasslands” by L. Li et al.

Anonymous Referee #2

Received and published: 30 August 2015

The manuscript needs some improvements before its publication:

- Introduction needs to be more specific about the related topic of the paper.
- Objectives should be addressed clearly following i), ii), iii)...
- Study area. It is necessary to include a location map.
- Conclusions. This section is missing and compulsory. Authors should written it replying to the objectives. i), ii)....
