

Interactive comment on “Qualitative and quantitative changes in detrital reservoir rocks caused by CO₂-brine-rock interactions during first injection phases (Utrillas sandstones, Northern Spain)” by E. Berrezueta et al.

E. Berrezueta et al.

e.berrezueta@igme.es

Received and published: 23 November 2015

We apologize about it.

The typing mistake was made in the post comment to referee 2. It was written in the right way in the revised manuscript (uploaded supplement in the previous post: sed-7-C1395-2015-supplement.pdf).

Page 17 line 17-19. “The measured pH (5.2) is not representative of the solution pH during the experiment, as it was measured after the experiment during depressuriza-

C1399

tion (Table 2).”

Thank you.
