Dear Referee #1 Thank you very much for taking the time to review the manuscript. Your comments are very useful. Please find the answers to your comments below: Figure 2 has been deleted as it does not provide much more information. The colors in Figures have been modified. The images in Figure 4 have been enlarged. The values in Figures 5-6-7 have been put in the Y axis.

Together with this reply I am also posting the new version of the manuscript (revised text, new color figs etc).

Please also note the supplement to this comment:
