## Author's changes

1- I changed the parts written in red. 2- I couldn't answer some comments from Referees. RC2 (4) is one of them. But still I tried to revised it. 3- I am not sure that“past references” could removed and used as “previous studies”. Please let me know if is it correct or not? 4- I am not sure that if the title is Socio-economic modifications of the Universal Soil Loss Equation: A study on the determination of a coefficient or not. Please let me know if it can be that or not. 5- I did not change abstract as told in RC2
