Received and published: 27 February 2017

The authors thank the two anonymous reviewers and the three formal commentators on our submitted manuscript. We have used these constructive points to formulate a revised version of our manuscript that we herewith re-submit to Solid Earth.

The comments and reviews dealing with:

SC1: Location of the volcanic arc during the earliest Permian SC2: U-Pb zircon rejection criteria SC3: The age of major regional units and our terminology for the New England Orogen RC1: General tectonics of the New England Orogen RC2: Geochemical analysis of magmatic rocks and tectonic implications following therefrom
