Interactive comment on "Determination of critical pH and Al concentration of acidic Ultisols for wheat and canola crops" *by* Abdulaha-Al Baquy et al.

Anonymous Referee #1

Dear author I found your paper of interest and my comments wish to improve your paper in two ways: 1. The figures can slightly be improved (be consistent) 2. the references can be updated to make your paper with a higher impact on the active research teams see attached a pdf with the comments

Please also note the supplement to this comment:
