Received and published: 27 April 2016

Dear Editorial boards of Solid and Earth

First of all, thank you very much for your kindness. Unfortunately, my area, Kumamoto was damaged by earthquake with M7.3 twice so we had to ask you to extend the due date of submitting revised manuscript. Recovering city and town has started so situation should be getting better, hopefully.

In this time, we submitted three files for each referee as follows: 1. Mukunoki_et_al_sand_void_paper second submission with revision record.pdf; 2. Mukunoki_et_al_sand_void_paper second submission without tracking; and, 3. Response to review results for referee2

Same files of the above item 1 and 2 are given to both referees. Detail explanation is included in the letter.

C1

Thank you

Toshifumi Mukunoki
