Interactive comment on "Arrested development – a comparative analysis of multilayer corona textures in metamorphic rocks" *by* Paula P. Ogilvie and Roger Lawrence R. L. Gibson

M. J. Heap (Editor)

heap@unistra.fr

Dear authors,

First, thank you for submitting your work to Solid Earth. I've now had time to read through the changes to your SED manuscript. The changes implemented clearly indicate that you have given the reviews considerable thought, and I'm now happy to accept the manuscript in Solid Earth.

Please consider Solid Earth for your future submissions.

Kind regards,

Michael Heap (topical editor of Solid Earth)
