Interactive comment on "Effects of topsoil treatments on afforestation in a dry-Mediterranean climate (southern Spain)" *by* P. Hueso-González et al.

Anonymous Referee #2

This work is focused to assessing the impact of 5 different Amendments on reforestation process. I appreciate that the introduction of this work is very clearly described how fundamental importance is the vegetation cover for soil conservation. Soil samples for analyze was collected for long time period and In my opinion, these results should have effect on knowledge in this science field.
