Dear Authors,

Thank you for this article, it gives a very handy insight into the obspyDMT use.

I think in your appendix B (p32) line 16, you may have made a mistake by writing "T(jw) in eq B3" instead of "G(jw) in eq B3". Because you called G(jw) your frequency response function in the upper part of this appendix.

Thank you again for all those information about obspyDMT.

Kind regards,

Frédéric Dubois
