Received and published: 10 May 2017

Respectfully, hereto find the final revised manuscript,titled: The effect of municipal wastewater on soil chemical properties . Noteworthy that since the preceding one had already been found with some syntactically-structural slips as well as spelling misprints by the revered referee panel, we decided to rewrite it anew thoroughly so that we should observe the writing standards particularly in part of speech to the uppermost level.obviously, all the comments on the part of the respected referees have been addressed to attentively.

Assuring you of our highest esteems, Yours, Irandoust M
