

Interactive comment on “The effect of municipal wastewater on soil chemical properties” by Mohsen Irandoust and Ali Salehi Tabriz

V. Kavvadias (Referee)

vkavvadias.kal@nagref.gr

Received and published: 26 March 2017

The manuscript has to be rewritten. I have great difficulty to understand the meaning of the text. In the beginning of the text I have tried to insert some corrections however it is very tiring to understand what the authors mean. Thus this work can be considered for evaluation if there will be significant improvement in the quality of writing. A native English speaker is recommended.
