Interactive comment on "Satellite-derived SO_2 flux time-series and magmatic processes during the 2015 Calbuco eruptions" *by* Federica Pardini et al.

M. J. Heap (Editor)

heap@unistra.fr

Received and published: 23 September 2017

Dear Federica Pardini,

As you have no doubt seen, I have now received two reviews of your manuscript "Satellite-derived SO2 flux time-series and magmatic processes during the 2015 Calbuco eruptions". Please now prepare a revised manuscript and point-by-point rebuttal letter. Reviewer #1 recommends publication following minor revision. However, reviewer #2, who recommends major revision, raises some concerns regarding the validity of the method: please pay particular attention to these comments in your rebuttal letter. Addressing the comments of reviewers #1 and #2 will no doubt help improve your manuscript. I look forward to reading your revised manuscript.
