

Interactive comment on “Increasing CO₂ flux at Pisciarelli, Campi Flegrei, Italy” by Manuel Queisser et al.

Manuel Queisser et al.

manuelqueisser@web.de

Received and published: 29 August 2017

Dear Editor,

Both reviewer comments have been replied to. As a main point, both reviewers pointed out that LARRS cannot replace in situ measurement but is a complementary technique. This has been amended accordingly in the manuscript.

Please find attached the marked up version of the amended manuscript.

Thank you and best regards,

Manuel Queisser
