Dear members of the Editorial board,

We would like to thank once again Dan Smith for his thorough review and for his constructive comments which helped us improve this manuscript significantly. We hope that the reviewer find his comments satisfactorily addressed.

Our response to Dan Smith's comments includes three attached files;

(1) Authors response to Referee#1-Dan Smith: The document includes the original general and specific comments by Dan Smith (in black), our reply (in blue) and our

changes (in red).

(2) Manuscript_Corrected: The corrected version of the Manuscript where we have accepted all 'minor' corrections, mostly of grammatical nature, writing style and English usage suggested by the bothe Referees. This file also includes, all specific comments, our reply and change (with active track changes mode) in case any addition or re-phrasing was considered necessary for the purpose of clarification. In addition, in the end of the file you will find, among all figures, the updated figures (Figs.3, 4, 7, 8 and 9).

(3) Supplementary 2: This file includes the updated and extended analytical methods.

On behalf of all authors,

Georgatou Ariadni

Please also note the supplement to this comment:
