Dear members of the Editorial board,

We would like to thank Jonathan Naden for providing us detailed comments and suggestions particularly regarding the methodology and the English usage which helped improve the original manuscript. We hope that we have satisfactorily addressed the concerns raised by the reviewer.

Our response to Jonathan Naden's comments includes three attached files;

(1) Authors response to Referee#2-Jonathan Naden: The document includes the orig-

inal general and specific comments by Dan Smith (in black), our reply (in blue) and our

(2) Manuscript_Corrected: The corrected version of the Manuscript where we have accepted all 'minor' corrections, mostly of grammatical nature, writing style and English usage suggested by the both Referees. This file also includes, all specific comments, our reply and change (with active track changes mode) in case any addition or rephrasing was considered necessary for the purpose of clarification. In addition, in the end of the file you will find, among all figures, the updated figures (Figs.3, 4, 7, 8 and 9).

(3) Supplementary 2: This file includes the updated and extended analytical methods.

On behalf of all authors,

Georgatou Ariadni

Please also note the supplement to this comment:
