

***Interactive comment on “Sediment history mirrors Pleistocene aridification in the Gobi Desert (Ejina Basin, NW China)” by Georg Schwamborn et al.***

**Georg Schwamborn et al.**

georg.schwamborn@fu-berlin.de

Received and published: 9 December 2019

Following the comments we will (i) expand on the n-alkane section (modify, expand), (ii) include the pollen analysis and interpretation (after late arrival from the lab) and (iii) work on the issues raised by the two reviewers. More co-authors will be included in the course of it.
