Received and published: 27 February 2019

Dear Editor,

I appreciate you for your interests and consideration of the present submitted study on investigation of source properties of central Anatolian earthquake using modelling of coda waves.

Here I would like to notice that the comments and opinions from Dr. Takahiko Uchide was very thorough and constructive . I carefully examined his comments and implemented necessary changes and corrections to the manuscript. I believe that his comments and suggestions substantially improved the quality and clarity of the paper.

I attach a file named "EKEN-SE-2019-8-REVISION-for-Reviewer1.pdf" as supplement-

C1

tary. This file contains the rebuttal letter, and main text with annotations showing any changes (in red color) and final version of the main text after implemented modifications.

Sincerely yours

Tuna Eken
