

Interactive comment on “A Multi-phasic Approach for Estimating the Biot Coefficient for Grimsel Granite” by Patrick Selvadurai et al.

Anonymous Referee #1

Received and published: 2 July 2019

This paper proposes a new method to measure the Biot coefficient of a polymineralic anisotropic rock, namely the Grimsel Gneiss. The paper is well structured and perfectly written. The outcomes of the test result analysis are very convincing and valuable.
