Dear authors,

after considering your response to the reviewers, I think you have addressed most issues properly. If something, I agree with reviewer 2 in how helpful it would be to add a figure with a thin section where structural relationships can be studied. I also agree with reviewer 1 in the need to add details to the complicated Geological Setting of the

C1

area, although it might turn out to be a bit overwhelming for some readers. Accordingly, I'd like you to upload the revised versión of your MS at your earliest convinence
