

Dear Prof. Toy,

Thank you for reading the revised manuscript and identifying the errors.

We have amended the typographic errors, added a sentence that summarizes the evidence of overpressure in the Rupelian in L365, and enlarged font in Figs. 5-8. We are not able to display all three parts of Fig. 3 in one page, as it would reduce the overall readability of the figure.

Best wishes,

Vladimir Shipilin, for the authors
