

Remarks from the preceding review file validation

Please note that coloured table cells are not allowed in the final paper. If possible, please rotate tables and figures into portrait mode.

Response: In accordance with the comments of the technical check team, colours have been removed from the tables, and all tables and figures in the main paper have been changed to portrait mode. As a result, the placement and formatting of some figures and tables have changed. However, the content of the paper remains exactly the same as accepted by the topical editor.
