minor changes were made according to requirements of reviewer 2. Unfortunately, I saved over the original tex file, before running latexdiff, so I can't produce a marked up pdf any more. Nevertheless, there are literally only 5 changes to the manuscript.
Bernoulli (sp) (26)
parantheses around Adams and Fournier reference (144)
e.g. / parantheses around Adams and Fournier reference (368)
A change of word (elliptic instead of hyperbolic) (405)

Changes to the acknowledgements (adding thanks to the reviewers/editor).
